

Sweeper Attachments

Sweeper Attachments - AUSA forklifts provide utmost functionality and are really known for their compact, ergonomic and highly modular design. They provide versatility and stability while handling loads on the jobsite and are considered really safe. With respect to different forklifts, AUSA models have a large diameter of their wheels that helps to guarantee favorable load suspension in the cab and in the blades. This allows the lift truck to generate an optimum working productivity over variable and uneven surfaces.

The company headquarters for AUSA are situated in Manresa, Spain which is in the province of Barcelona's interior. The main manufacturing facility is also at this site and holds a total surface area of more or less 64,000 square meters. AUSA has subsidiaries situated in the France, Florida, China, UK, Germany and Madrid. The business exports more than 60% of the machines they make and markets its goods throughout two hundred twenty five distributors all over 70 nations.

Each of the AUSA forklifts is presented equipped together with an automatic hydrostatic transmission. This gives accuracy of movement and automatic braking in deceleration of the forklift which gives this machine an added level of safety and productivity. The hydrostatic transmission enables the individual operating it to quickly adjust to the forklift which is vital when the load is really not easy to handle and whenever terrain situations are difficult.

AUSA lift trucks provide a unique cabin design like no other obtainable. It is frontal folded to make it a lot easier to access for periodical upkeep. These highly modular cabins even come in open, soundproof closed, or semi-closed. For northern weather conditions heated cabins are an option, and, air conditioning is included in a rear post of the cabin. A wide range of tire widths, grips and attachments are even available to suit whatever of the forklift units.

The world's best in compact equipment, AUSA also specializes in site dumpers, tool carrier vehicles and urban sweepers. With service and sales in over seventy nations within 5 continents and more than 200 sales depots internationally, AUSA is an industry leader.
