

## Concrete Hopper

Concrete Hoppers - The self-dumping hopper attachment can automatically start to both dump and release whenever the bumper release contacts the side of a dumpster. Once unloading is finished, the hopper could go back to original locked and upright position. This piece of machinery is also obtainable together with a cable that allows operation from the seat of the lift truck in order to have the option of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the tine truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish so as to maintain durability.
