

## Rockwell Parts

Rockwell Part - AxleTech International is a leading provider in the world of specialty vehicle drive-train systems and parts along with off highway vehicles. The business prides itself on being its clients' preferred supplier. AxleTech strives to exceed and meet their customers' expectations for delivery, quality, service and technology. They believe in working within an atmosphere that encourages the utmost integrity with empowered teamwork, along with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious business and providing a safe environment for their employees to work in. Also, they have implemented various programs within the company to be able to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever questions or comments, as they are happy to share and promote this policy with a greater knowledge of their efforts. They are very dedicated to preserving and improving the surroundings. AxleTech has an EHS program which not just protects the natural world but which likewise actively protects their employees and neighbors also.

AxleTech specializes in the designing and manufacture of planetary axles for both military and commercial applications, that can consist of anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech particularly designs axles in order to meet particular application demands. They have more than 1000 different axle specs in their current offering. With more than one hundred years of skill and history, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The company is well known in various military and commercial applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product collection.
